

The Denver Astronomical Society  
presents:

# Alien Seas

an entertaining romp through the most  
bizarre oceans in our solar system.

From Europa's watery depths to the  
methane seas of Titan, Michael Carroll  
explores alien vistas across our solar  
system using photos and art.

Carroll will sign his books, and will  
have some of his  
original art for sale as well!

Michael Carroll is an astronomical artist and  
science journalist, with 22 books in print.  
He is a frequent contributor to such magazines as  
*Sky & Telescope* and *Astronomy*.

**When: Friday, Jan 6, 7:30pm**

**Where: Olin Hall, DU Campus**
